## Implant Placement Post-Operative Instructions

- 1) Do not rinse your mouth vigorously during the first 24 hours after surgery.
- 2) Use ice packs over the facial cheek surgical area for 20 minutes at a time during the first day after surgery.
- 3) Use an elevated headrest or an extra pillow for the first night following the surgery, if you are still experiencing bleeding.
- 4) Rinse your mouth thoroughly with the prescribed mouth rinse 3 times a day after brushing until the bottle is finished.
- 5) Follow the directions carefully for any prescribed medications.
- 6) If you have any questions or concerns related to the healing of your implant, please contact us.

\*Remember when you leave our office your mouth may still be numb. Please do not eat and do not drink hot beverages until the numbness wears off.
