Welcome to the ArtisticD Cares Plan!

Our office believes in preventive dentistry.

Detecting decay and periodontal issues early, before they become root canals, extractions, and gum disease, is very important to us.

That's why our plan will always include your bi-annual continuing care appointments. These appointments allow us to see changes in the teeth and gums and to address these concerns quickly and early, resulting in less pain and less need for invasive and expensive treatments in the future.

ArtisticD Cares Plan (ADCP) is not an insurance plan. It is our own in-office membership that qualifies you for discounts off our normal rates for dental services including cosmetic treatments, implants, and orthodontics. There are no waiting periods, deductibles, or maximums.

We believe that by working together we can make a difference in your dental experience, health, and happiness. When you smile, we do too!

Looking forward to our continued partnership!

All of us at Artistic Dental
